

TOWN OF RAYMOND

Adopted By:

Motion: #08-212

Authority to Administer: Director of Operational Services

Policy Number: OP - 2017-17

Policy Name

Street Lighting Policy

Policy Statement

Illumination of public roadways is an important component of providing facilities and services necessary for the well-being and safety of the citizens. Council during their annual budget deliberations may allocate funds for street illumination.

Policy Procedure

The present illumination standard in developed areas of the community is one street light somewhere around the mid-point of each block and a street light at each intersection in developed areas of the community.

1. Operational Services is responsible to annually review street illumination and to provide recommendations for Council's consideration during their Budget deliberations. Their recommendations are to be based on the present illumination standard.
2. Enhanced illumination may be provided only by review and approval of Council.
3. Enhanced Illumination will be considered by request.
4. Council will provide notice to the residents of the Block, soliciting their comments prior to any decision.

Budget funds are approved and allocated by Council prior to the installation of any enhanced street illumination.
