

TOWN OF RAYMOND

Adopted By:

Motion:

Authority to Administer: Director of Operational Services

Policy Number: OP - 2017-19

Policy Name

Sewage Dumping Policy

Policy Purpose

To set the practices and fees relating to the dumping of sewage into the Town's sewage system.

Policy Statement

Local private companies have expressed interest in utilizing the Town's sewer lines to dump sewage. The Town is prepared to allow this, provided the following procedures are followed.

Policy Procedure

1. Those dumping sewage into Town lines will be charged on a per load basis of \$75.00 per load.
2. Individual truckloads are not to exceed 4,000 litres.
3. In efforts to limit dumping in residential areas, and to avoid unrest among citizens, sewage dumping shall occur in one location in close proximity to the town's lift station. This also ensures that sewage dumping occurs in an area where the infrastructure can handle it, and, that sewage can go through the necessary treatment prior to entering the Town's sewage lagoon. Sewage dumping directly into the lagoon is not permitted.
4. The Town's Operations Services Manager must be contacted prior to every dump, to ensure these procedures are understood and followed. The manager can be reached at (403) 752-3121.
