Essential Infrastructure & Services – As a municipality, our key role is to ensure the operation of essential infrastructure and services like potable water, wastewater, solid waste and public safety. Our top priority is the health, safety and well-being of the public and our employees. We are focusing on maintaining essential services for the Town as follows:

- **Potable Water** – Our water system is secure. The Ridge Water Services Commission operates the water system, which is a closed system and is a fully controlled program via automation. The source water is protected and enters a closed and filtered process. There is no public access to the plant. The water is tested daily by staff of 3 qualified operators.
- **Wastewater** – Please do not flush paper towel, hand wipes, or anything other than toilet paper down the toilet, as these items will clog our system.
- **Solid Waste** – Regular garbage collection will continue as scheduled. Please ensure that all garbage is bagged and that no loose garbage is in the bin.
- **Community Policing** – The RCMP and our Community Peace Officers are maintaining normal operations. If you have an emergency, please dial 911. Otherwise call the RCMP Detachment at **403-752-3351** or the Peace Officers at **587-813-0791** for any other questions or complaints.
- **Raymond Fire Department** – The firehall is closed to the public. If you have an emergency, please dial 911. Our volunteers are amazing people who serve our community and are ready to respond when and if needed.

Local Businesses - #SkipTheTrip is just as important as it's ever been. Please continue to shop local and support our businesses. Many of our local businesses are offering home delivery, so please consider supporting them even if you have chosen to remain within your homes. However, please stay home if you don't feel well.
